A Boutique Vision for Coastal Living

With architecture by Garcia Stromberg and interiors by Dan Fink Studio, the project presents a limited collection of two and three bedroom homes with dens, ranging from approximately 1,550 to 3,480 square feet. Six penthouses crown the development, offering ceiling heights up to 11 feet and an elevated sense of indoor outdoor living inspired by the surrounding water and light.

The dual-tower configuration is shaped by its waterfront setting, maximizing breezes and panoramic views while maintaining a sense of privacy and intimacy throughout the residences.
